Magicuser API	@kristel.vainomets Date of testing: 31.10 OS: Windows 11 Version 22H2 Postman for Windows, version 10.19.0
GET	
M1.1 Get list of Magicusers - default	Failed 🔲 T8CA-61: Magicuser API: Parameter limit errors TO DO
M1.2 Get list of Magicusers - no authorization	Failed 🔲 T8CA-50: Magicuser API: GET magicusers request returns result without authorization TO DO
M1.3 Get list of Magicusers - limit set to 0	Passed
M1.4 Get list of Magicusers - cursor set to -1	Failed 🔲 T8CA-390: Magicuser API: unexpected error, when cursor set to -1 TO DO
M1.5 Get list of Magicusers - cursor set to 50	Passed
M1.6 Get list of Magicusers - cursor set to more than max elements	Passed
M1.7 Get list of Magicusers - cursor set to boolean	Passed
M1.8 Get list of Magicusers - limit set to 100	Passed
M1.9 Get list of Magicusers - limit set to 101	Passed
M1.10 Get list of Magicusers - limit set to string	Passed
M1.11 Get list of Magicusers - sort field exists	Passed
M1.12 Get list of Magicusers - sort partial field name	Failed 🔲 T8CA-152: Magicuser API: using partial sort field name returns result TO DO
M1.13 Get list of Magicusers - sort field does not	Passed

exist	
M1.14 Get list of Magicusers - sort descending	Passed
M1.15 Get list of Magicusers - sort ascending	Passed
M1.16 Get list of Magicusers - search for magicuser	Passed
M1.17 Get list of Magicusers - constraints link opened boolean field	Passed
M1.18 Get list of Magicusers - search for Created By field	Passed
M1.19 Get list of Magicusers - constraints key: Created Date greater than specified date	Passed
M1.20 Get Magicuser by Id	Passed
M1.21 Get Magicuser by Id - no authorization	Failed ⬛ T8CA-202: Magicuser API: GET Magicusers by ID request returns results without authorisation TO DO
POST	
M2.1 Create a new Magicuser - all fields	Passed
M2.2 Create a new Magicuser - no authorization	Passed
M2.3 Create a new Magicuser - email field 101 characters	Failed ⬛ T8CA-16: Magicuser API - Create a new Magicuser - Emails can be longer than 100 symbols TO DO
M2.4 Create a new Magicuser - empty body	Failed ⬛ T8CA-17: Magicuser API - Create a new Magicuser- Email can be empty for Magicuser creation. TO DO

Leads API	@Karin Laane Date of testing: 31.10 Windows 10 22H2, Chrome Version 116.0.5845.111 (Official Build) (64-bit) Postman 10.19.14
GET	
L1.1 Get list of Leads - default	Failed ⬛ T8CA-19: Leads API: Parameter limit errors TO DO
L1.2 Get list of Leads - no authorization	Failed ⬛ T8CA-21: Leads API: GET Leads/GET Lead by ID request returns results without authorisation TO DO
L1.3 Get list of Leads - limit set to 0	Failed ⬛ T8CA-19: Leads API: Parameter limit errors TO DO
L1.4 Get list of Leads - limit set to 100	Passed
L1.5 Get list of Leads - limit set to 101	Passed

L1.6 Get list of Leads - limit set to non integer	Passed
L1.7 Get list of Leads - limit set to -1	Passed
L1.8 Get list of Leads - limit active and empty	Passed
L1.9 Get list of Leads - cursor set to 0	Passed
L1.10 Get list of Leads - cursor set to -1	Failed ▣ T8CA-3: Leads API: Get list of Leads - wrong error message for cursor negative integer ᵀᴼ ᴰᴼ
L1.11 Get list of Leads - cursor set to 50	Passed
L1.12 Get list of Leads - cursor set to non integer	Passed
L1.13 Get list of Leads - cursor active and empty	Passed
L1.14 Get list of Leads - sort field present	Passed
L1.15 Get list of Leads - descending sort	Passed
L1.16 Get list of Leads - ascending sort	Passed
L1.17 Get list of Leads - sort field empty	Passed
L1.18 Get list of Leads - sort field does not exist	Passed
L1.19 Get list of Leads - constraints company_text	Passed
L1.20 Get list of Leads - constraints Created By	Passed
L1.21 Get Lead by Id - existing id	Passed
L1.22 Get Lead by Id - no authorization	Failed ▣ T8CA-21: Leads API: GET Leads/GET Lead by ID request returns results without authorisation ᵀᴼ ᴰᴼ
L1.23 Get Lead by Id - empty id value	Passed
L1.24 Get Lead by Id - partial id	Passed
L1.25 Get Lead by Id - data from deal_custom_deal1 field	Passed
POST	
L2.1 Create a new Lead - correct	Passed
L2.2 Create a new Lead - no authorization	Passed
L2.3 Create a new Lead - empty body	Failed ▣ T8CA-10: Leads API: create a new Lead - empty request body ᵀᴼ ᴰᴼ
L2.4 Create a new Lead - email validation	Failed ▣ T8CA-18: Leads API: create a new Lead - no email validation ᵀᴼ ᴰᴼ
L2.5 Create a new Lead - company name len = 50	Passed
L2.6 Create a new Lead - company name len = 51	Failed

	◼ T8CA-11: Leads API - Create a new Lead - More than 50 symbols can be used in compani name TO DO
L2.7 Create a new Lead - company name empty	Failed
	◼ T8CA-13: Leads API - Create a new Lead - Company can be empty for Lead creation. TO DO
L2.8 Create a new Lead - full name len = 51	Failed
	◼ T8CA-15: Leads API - Create a new Lead - company full name can be longer than 50 symbols TO DO
L2.9 Create a new Lead - full name len = 50	Passed
L2.10 Create a new Lead - email len = 100	Passed
L2.11 Create a new Lead - email len = 101	Failed ◼ T8CA-12: Leads API - Create a new Lead - Emails can be longer than 100 symbols TO DO
L2.12 Create a new Lead - email empty	Failed
	◼ T8CA-14: Leads API - Create a new Lead - Email can be empty for Lead creation. TO DO
L2.13 Create a new Lead - empty string	Passed
L2.14 Create a new Lead - integer values	Passed
PATCH	
L3.1 Modify lead by id - no authorization	Passed
L3.2 Modify lead by id - all fields valid	Passed
L3.3 Modify lead by id - invalid email	Passed
L3.4 Modify lead by id - empty body	Passed
L3.5 Modify lead by id - wrong id	Passed
L3.6 Modify lead by id - empty id field	Passed
PUT	
L4.1 Replace lead by id - correct info	Passed
L4.2 Replace lead by id - no authorization	Passed
L4.3 Replace lead by id - empty body	Failed
	◼ T8CA-32: Leads API: Replace lead data - empty request body TO DO
L4.4 Replace lead by id - incorrect email format	Passed
L4.5 Replace lead by id - wrong id	Passed
L4.6 Replace lead by id - empty id field	Passed
L4.7 Replace lead by id - max symbols	Passed
L4.8 Replace lead by id - exceeding max symbols	Failed

	🔴 T8CA-31: Leads API: Replace lead data - Fields maximum symbol validation error TO DO
L4.9 Replace lead by id - empty string	Failed 🔴 T8CA-51: Leads API: Replace lead data - empty string value is allowed TO DO
L4.10 Replace lead by id - integer values	Passed
DELETE	
L5.1 Delete lead - existing lead	Passed
L5.2 Delete lead - partial lead id	Passed
L5.3 Delete lead - no authorization	Passed
L5.4 Delete lead - delete same lead twice	Passed

Funnels API	@andreas leinola Windows 11; Google Chrome 118.0.5993.70 Date of testing: 30.10
GET	
F1.1 Get list of Funnels - default	Passed
F1.2 Get list of Funnels - no authorization	Failed 🔴 T8CA-107: Funnels API: GET Funnels/GET Funnels by ID request returns results without authorisation TO DO
F1.3 Get list of Funnels - limit set to 0	Failed 🔴 T8CA-200: Funnels API: Parameter limit errors TO DO
F1.4 Get list of Funnels - limit set to 100	Passed
F1.5 Get list of Funnels - limit set to 101	Passed
F1.6 Get list of Funnels - limit set to non integer	Passed
F1.7 Get list of Funnels - limit set to -1	Passed
F1.8 Get list of Funnels - limit active and empty	Passed
F1.9 Get list of Funnels - cursor set to 0	Passed
F1.10 Get list of Funnels - cursor set to -1	Failed 🔴 T8CA-201: Funnels API: GET Funnels - wrong error message for cursor negative integer TO DO
F1.11 Get list of Funnels - cursor set to 50	Passed
F1.12 Get list of Funnels - cursor set to non integer	Passed
F1.13 Get list of Funnels - cursor active and empty	Passed
F1.14 Get list of Funnels - sort field present	Passed
F1.15 Get list of Funnels - sort field partial field name	Failed 🔴 T8CA-203: Funnels API: Parameter sort field partial value returns result TO DO
F1.16 Get list of Funnels - sort descending	Passed

F1.17 Get list of Funnels - sort ascending	Passed
F1.18 Get list of Funnels - constraints members_list_user not empty	Passed
F1.19 Get funnel by id	Passed
F1.20 Get funnel by ID - no authorization	Failed 🔲 T8CA-107: Funnels API: GET Funnels/GET Funnels by ID request returns results without authorisation TO DO
F1.21 Get funnel by ID -partial ID	Passed
F1.22 Get funnel by ID - empty ID value	Passed
POST	
F2.1 Create a new Funnel - correct	Passed
F2.2 Create a new Funnel - no authorization	Passed
F2.3 Create a new Funnel - empty body	Failed 🔲 T8CA-62: Funnels API: create a new Funnel - empty body request TO DO
F2.4 Create a new Funnel - empty string	Failed 🔲 T8CA-63: Funnels API: Create a new Funnel - empty string values TO DO
F2.5 Create a new Funnel - without stages	Passed
F2.6 Create a new Funnel - multiple members_list user	Passed
F2.7 Create a new Funnel - multiple stage_list_custom_stage	Passed
F2.8 Create a new Funnel - same member ID multiple times	Passed
F2.9 Create a new Funnel - same stage ID multiple times	Failed 🔲 T8CA-110: Funnels API: Possibility to add same member ID and stage ID multiple times TO DO
PATCH	
F3.1 Modify funnel by ID - correct	Passed
F3.2 Modify funnel by ID - no authorization	Passed
F3.3 Modify funnel by ID - empty ID field	Passed
F3.4 Modify funnel by ID - partial ID field	Passed
F3.5 Modify funnel by ID - empty members_list_user	Passed
F3.6 Modify funnel by ID - empty stage_list_custom_stage	Passed

PUT

F4.1 Replace funnel by ID - correct	Passed
F4.2 Replace funnel by ID - no authorization	Passed
F4.3 Replace funnel by ID - empty ID field	Passed
F4.4 Replace funnel by ID - partial ID field	Passed
F4.5 Replace funnel by ID - empty members_list_user	Passed
F4.6 Replace funnel by ID - empty stage_list_custom_stage	Failed ⬛ T8CA-120: Funnels API: replace funnel by ID - empty string values allowed TO DO
F4.7 Replace funnel by ID - empty body	Failed ⬛ T8CA-124: Funnels API: replace funnel by ID - empty request body TO DO

DELETE

F5.1 Delete funnel - valid ID	Passed
F5.2 Delete funnel - no authorization	Passed
F5.3 Delete funnel - same ID twice	Passed
F5.4 Delete funnel - partial ID	Passed
F5.5 Delete funnel - empty id field	Passed

Stages API	@Anne-Mari Tamm Mac OS: Big Sur 11.7.10, Google Chrome 117.0.5938.62 Postman for Web 10.19.14-231031-0907 Date of testing: 30.10

GET

S1.1 Get list of Stages	Passed
S1.2 Get list of Stages - no authorization	Failed ⬛ T8CA-59: Stages API - You can get the list of all Stages without authorization token TO DO
S1.3 Get list of Stages - sort field present	Passed
S1.4 Get list of Stages - sort field empty	Passed
S1.5 Get list of Stages - sort field does not exist	Passed
S1.6 Get list of Stages - cursor set to -1	Failed ⬛ T8CA-60: Stages API - Get lsit of Stages - wrong error message for cursor negative integer TO DO
S1.7 Get list of Stages - cursor set to 50	Passed

S1.8 Get list of Stages - cursor set to non INT	Passed
S1.9 Get list of Stages - descending sort	Failed ⬛ T8CA-419: Stages API: Get list of Stages descending sort_field error TO DO
S1.10 Get list of Stages - ascending sort	Failed ⬛ T8CA-421: Stages API: Get list of Stages ascending sort_field error TO DO
S1.11 Get list of Stages - limit set to 0	Passed
S1.12 Get list of Stages - limit set to 101	Passed
S1.13 Get list of Stages - limit set to 100	Passed
S1.14 Get list of Stages - limit set to non int	Passed
S1.15 Get list of Stages - limit set to -1	Passed
S1.16 Get list of Stages - constraints color_option_colors	Passed
S1.17 Get Stageby Id - existing id	Passed
S1.18 Get Stageby Id - empty id value	Passed
S1.19 Get Stageby Id - partial id	Passed
S1.20 Get Stageby Id - no authorization	Failed ⬛ T8CA-92: Stages API - GET Stages by ID request returns results without authorisation TO DO
POST	
S2.1 Create a new Stage - no funnel, no deal	Passed
S2.2 Create a new Stage - no authorization	Passed
S2.3 Create a new Stage - empty body	Failed ⬛ T8CA-423: Stages API: create a new Stage - empty body request TO DO
S2.4 Create a new Stage - empty fields	Failed ⬛ T8CA-424: Stages API: Create a new Stage - empty string values TO DO
S2.5 Create a new Stage - wrong color	Passed
S2.6 Create a new Stage - correct color	Passed
S2.7 Create a new Stage - color correct + deal id incorrect	Passed
S2.8 Create a new Stage - color correct + deal id correct	Passed
S2.9 Create a new Stage - correct color + deal id + funnel id provided	Passed
S2.10 Create a new Stage - correct color in lowercase + deal id + funnel id provided	Passed

S2.11 Create a new Stage - no color + deal id + funnel id provided	Passed
PATCH	
S3.1 Modify stage by id - no funnel, no deal	Passed
S3.2 Modify stage by id - no authorization	Passed
S3.3 Modify stage by id - all params filled	Passed
S3.4 Modify stage by id - empty id field	Passed
S3.5 Modify stage by id - partial id field	Passed
S3.6 Modify stage by id - color not among allowed	Passed
S3.7 Modify stage by id - color field empty	Passed
S3.8 Modify stage by id - try to patch with invalid funnel id	Passed
S3.9 Modify stage by id - try to patch with invalid deal id Copy	Passed
PUT	
S4.1 Replace stage by id - no funnel, no deal	Passed
S4.2 Replace stage by id - no authorization	Passed
S4.3 Replace stage by id - empty id field	Passed
S4.4 Replace stage by id - partial id field	Passed
S4.5 Replace stage by id - all fields filled	Passed
S4.6 Replace stage by id - color not among allowed	Passed
S4.7 Replace stage by id - color field empty	Passed
S4.8 Replace stage by id - try to add invalid deal id	Passed
S4.9 Replace stage by id - try to add invalid funnel id	Passed
DELETE	
S5.1 Delete stage - with valid id	Passed
S5.2 Delete stage - with same id twice	Passed
S5.3 Delete stage - no authorization	Passed
S5.4 Delete stage - partial id	Passed
S5.5 Delete stage - empty id field	Passed
